

Ottimo Block Wall Mounted Waterfall Shower Head

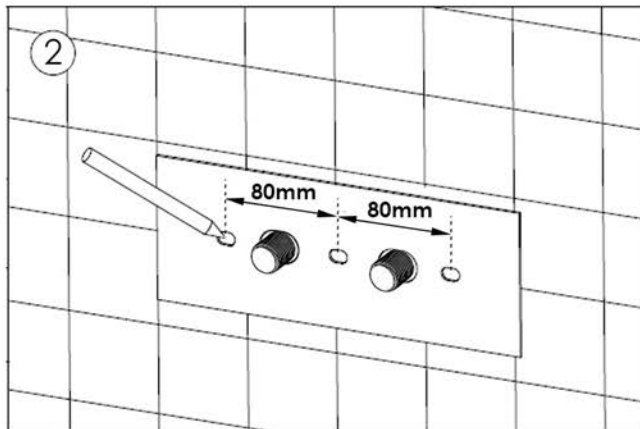

Installation Instructions

CASA LUSSO

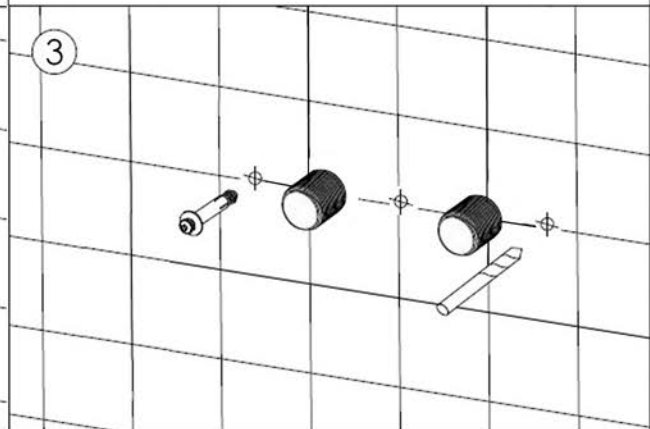

PLEASE NOTE:
An In Wall Diverter mixer must be installed for both functions of this shower head to operate.

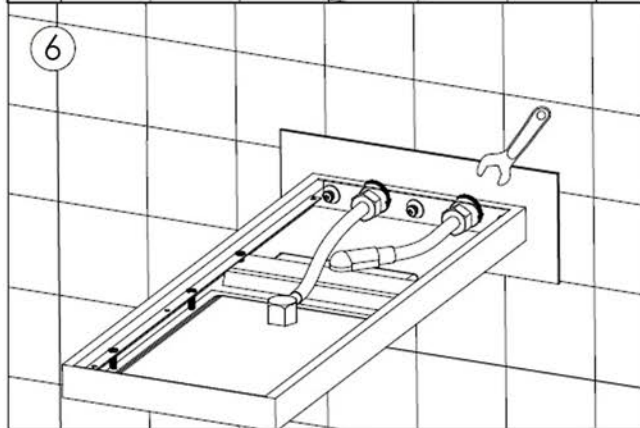

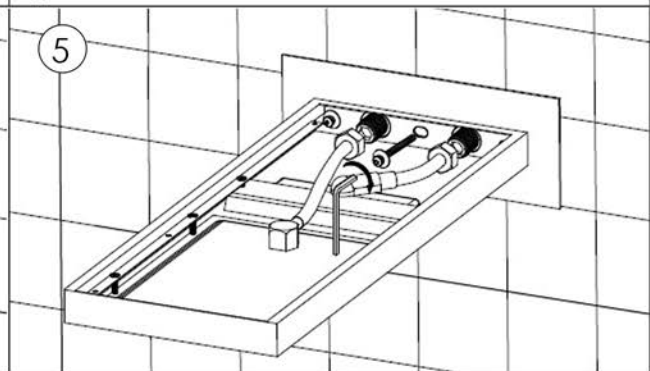

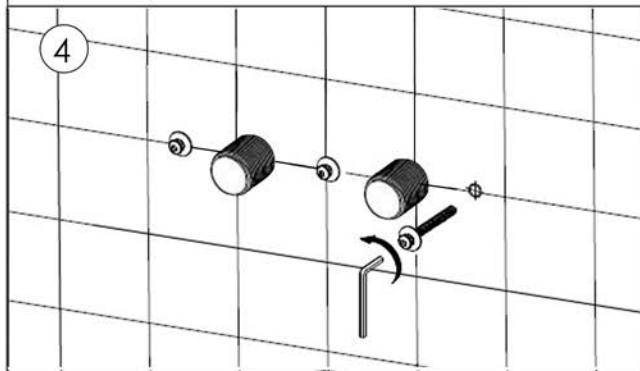

Step 1. Two 1/2" BSP's must be installed 80-90mm apart at preferred shower head height during rough in stage.

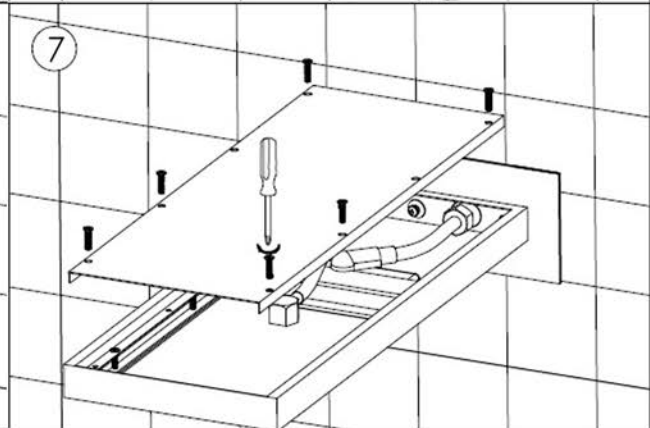

Step 2. Please ensure there is sufficient support to securely fix the shower head to the wall. Mark holes 80mm apart as per backplate.

Steps 3-5. Fix shower head to wall using the 3 bolts supplied or appropriate fixings dependent on type of wall.

Step 6. Carefully connect Flexi's to 1/2" BSP's ensuring not to damage the rubber 'O' rings.

Step 7. Test that both shower head functions are working correctly then refit top plate.
