1 year labour

GENERAL INFORMATION

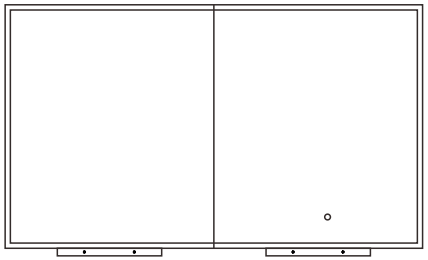

The warranty will not apply if:
- The product has been damaged by improper use;
- The product has not been used in accordance with any applicable instruction guide;
- The purchaser has attempted to modify or repair the product;
- The purchaser has failed to observe the cleaning and maintenance guidelines;
- The product is not installed by a licenced electrician.

Important:
- Mirrors are Extremely Fragile
  Take Care While Transporting and Handling Mirrored Goods.
- This product should be installed by a licenced electrician.
- Ensure mains power is off before installation.
- Do not install within 600mm of direct wet area contact.
  (ie. 600mm from bath or open shower)

To electrician: Please ensure a copy of the installation instructions is left with the end user for future reference.

FAILURE TO COMPLY WITH ANY OF THE ABOVE INSTRUCTIONS WILL VOID ALL WARRANTIES

Before drilling any fixing holes ensure there are no obstructions hidden beneath the mounting surface area and that is free from pipes, cable or wires that could be damaged during installation.

IMPORTANT! Electrical Connections:
Always ensure the electrical supply is switched off at the mains during installation and any maintenance. LED Mirrors need to be hardwired and installed by a qualified electrician only.

JASPER LED Edge Mirror Cabinet w/ GPO and USB Power 1200mm

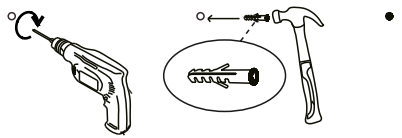

IMPORTANT

- The product is fragile. Be careful during unpacking and installation;
- The product should be cleaned by standard detergents and soft cotton cloth;
- Class II luminaires should be installed so that any exposed metal work is not in electrical contact with any part of the electrical installation connected to a protective conductor;
- For indoor use only;
- If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard;
- Mirrored surfaces: Please only clean the mirrored surfaces with a moist chamois leather and do not use commercial glass cleaner.
- Always wipe the edges of the mirror dry. Otherwise, coating flaws may develop.
- A minimum of 30 mm clearance on each side is required to allow door operation. Minimum total clearance required: 1260 mm

TURNING ON & OFF
To turn ON or OFF the LED Mirror, press your finger against the touch sensor.

CHANGING THE LIGHT INTENSITY
Turn ON the mirror light and hold your finger on the sensor until the desired brightness is achieved.

CHANGING THE LIGHT FROM COOL TO WARM
Double tap the touch sensor to change the colour. The mirror will cycle through the colour range.

MEMORY FUNCTION
The mirror will remember your preselected colour and light intensity settings.
